Stepping Stones...providing the foundation for lifelong learning

What Makes Stepping Stones Exceptional?

NAEYC Accredited! NAEYC accreditation is the ultimate indicator of quality. It lets families in our community know that children in our high-quality program have teachers who create engaging classrooms, enhance relationships with their parents and families, and develop rich experiences for their students.

Our Curriculum! Developmentally appropriate, our discovery based “Big Day for Preschool” curriculum is created by Houghton Mifflin Harcourt School Publisher. Our curriculum aligns with the District’s Kindergarten standards which creates stepping stones from Preschool to Kindergarten.

Our Well Trained Teachers! Our highly qualified teachers are passionate about your child’s happiness and growth and provide a safe and nurturing environment that cultivates self-esteem. They strive to form a strong partnership with families to ensure the best possible experience for you and your child.

The Environment! We boast creative, engaging classrooms that support children’s exploration and inspire learning. The children will make the social, academic, and physical connections to school, while creating long lasting relationships.

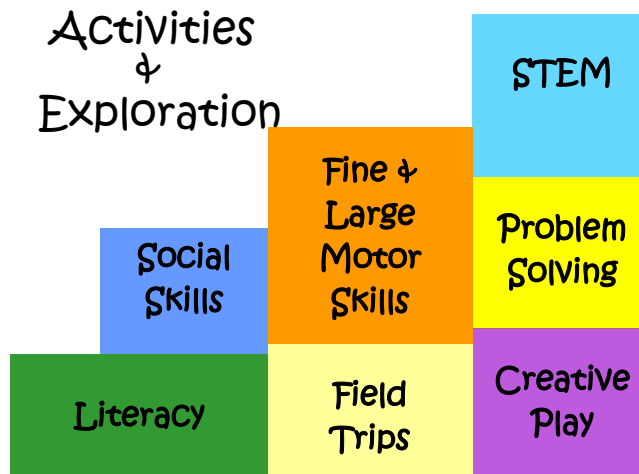

What will my child learn?

Stepping Stones is designed to provide a foundation for lifelong learning. Children will participate in a variety of activities that are designed to prepare them for Kindergarten. Our discovery-based, “hands on, minds on” teacher guided curriculum includes:

- ◆ S.T.E.M Curriculum
- ◆ Houghton Mifflin Pre-K Curriculum
- ◆ S.M.A.R.T (Stimulating Maturity through Accelerated Readiness Training) Curriculum
- ◆ Zaner-Bloser Handwriting Program

Activities are individualized for your child. It is important to us that your child develops at their own pace. Your child’s growth is assessed informally and formally throughout the year. Results in the areas of social-emotional development, math, literacy, language, problem solving and physical development are shared at conferences.

Communication

Stepping Stones staff believe that on-going communication is key to your child’s success. Our families help us thrive and are an integral of our program.

Stepping Stones offers yearly conferences. In addition, families receive weekly newsletters with recaps and previews of activities, daily happenings, and recommendations to parents on how they can extend learning beyond the classroom. We regularly invite parents into our classrooms with planned family events and an open door policy. We foster parent involvement and input through our Advisory Council, surveys and volunteer opportunities.

SUMMER and FALL Registration begins in January!

Fill your child’s summer with Preschool FUN!! Join us for a summer of hands-on experiences with songs, games, writing activities, art, STEAM (Science, Technology, Engineering, Art, Math), dramatic play, field trips and outdoor play!
