December 15, 2020

To the School Board and citizens of Independent School District No. 192:

INTRODUCTION

We are submitting the comprehensive annual financial report (CAFR) of Farmington Area Public Schools, Independent School District No. 192 (the District) for the fiscal year ended June 30, 2020.

The Farmington Area Public Schools is an outer ring suburb of the Twin Cities, covering approximately 82 square miles. The enrollment projections for 2019-20 through 2022-23 is consistent with 2018-19 enrollment of roughly 7,200 students. The age of the eleven school facilities range from 1913 to the most recent construction of a new high school in 2009. Seven of the eleven buildings were built after 1988. Over the past years, there have been classroom additions added to four sites.

Generally accepted accounting principles require budgetary reporting at the legal level of control, which is the level beyond which a budgetary head has no authority to further modify the budget. In many cases, budgetary heads do have the authority to modify budgets by moving amounts around or moving budgeted amounts from one program to another. The Farmington Area Public Schools uses bottom-line budgeting. The total expenses for the 2019-20 school year were \$86,693,328 which was 6.4% over what was projected. This does include a capital lease of \$3,336,440 or 4.1%.

This report fairly presents the District's financial position and results of operations and cash flows in accordance with national and state standards. The District is responsible for its contents and has made every effort to ensure the accuracy and completeness of this presentation. An independent firm of certified public accountants audits this report.

REPORT FORMAT

This CAFR is presented in three sections: introductory, financial and statistical. The introductory section includes this letter of transmittal, an organizational chart and a list of School Board members and administrative personnel. The financial section includes the independent auditor's report, Management's Discussion & Analysis (MD&A), basic financial statements and the combining and individual fund statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year comparative basis.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A of the District can be found immediately following the report of the independent auditors.

FEDERAL SINGLE AUDIT AND STATE COMPLIANCE AUDIT

The District is required to undergo an annual single audit in conformity with the provisions of the Uniform Guidance. The District is also required to undergo an annual Minnesota State legal compliance audit under *Minnesota Statutes* § 6.65. Independent auditor reports and a Schedule of Expenditures of Federal Awards are included in a separately issued document. This report contains no significant findings or questioned costs.

REPORTING ENTITY AND ITS SERVICES

The legal name of the District is Independent School District No. 192 and is often referred to as Farmington Area Public Schools. The financial reporting entity includes all the funds of the primary government (the District). Component units are legally separate entities for which the District (primary government) is financially accountable. There are no organizations considered to be component units of the District.

The District provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through grade 12. These include regular and enriched academic education, special education for exceptional children and vocational education. Food service and transportation are provided as supporting programs. The District's community education program includes early childhood and extended day programs, along with a variety of classes for lifelong learning experiences for children.

The District serves all or parts of the communities of Farmington and Lakeville and the townships of Empire, Castles Rock and Eureka in Dakota County. The District enrolled 7,290 students in 2019-2020 from a population of 38,382 citizens residing within the District.

The District is organized as a political subdivision of the State of Minnesota and is governed by an elected six member School Board. The School Board has the power and duty to set budgets, certify tax levies, issue debt and perform other tasks necessary to the operations of the District. The District is subject to the general oversight of the Minnesota Department of Education. This oversight generally includes an approval process that reviews compliance to standards enacted by legislative mandate. During 2019-2020, the District operated one high school, two middle schools, five elementary schools, one 5-8 innovative school, an Instruction Services Center and the District Service Center. The instructional program is organized on the basis of K-5, 6-8, and grades 9-12.

LOCAL ECONOMIC CONDITION AND OUTLOOK

The District is dependent on the state of Minnesota for its revenue authority with exceptions for the voter approved operating and bond referenda. Recent experience demonstrates that legislated revenue increases have not been sufficient to meet instructional program needs and increased costs due to inflation. The State General Education Basic revenue formula provides approximately 69% of General Fund revenue. Since 2009 the Basic per pupil revenue formula has increased by an average of only 1.37% per year.

As the economy struggles with a global pandemic, the enrollment growth in the District remains stable.

STRATEGIC PLANNING AND MISSION STATEMENT

In December 2006, the District conducted a comprehensive strategic planning process. The plan is revisited every two years by a group of administrators, teachers, staff, parents and community members to measure progress and refine action steps and continue the implementation process. This process was last completed the summer of 2019. The District's refined belief statements, mission statement and strategies are summarized as follows:

District Belief statements

We Believe That:

- Each person has the capacity and desire to learn.
- Each person has inherent, immeasurable worth.
- All people develop best through personalization.
- Each person deserves respect.
- The well-being of future generations depends on us.
- We are stewards of Earth's natural resources.
- Communities thrive when all individuals are engaged.
- Each person is responsible to serve one's community
- Mutual communication is vital to relationships.
- Each person is obligated to do one's best.
- Curiosity ignites learning.
- Human diversity enriches both the individual and community.
- Integrity is crucial to trust.

Mission Statement

The mission of Farmington Area Public Schools, a student centered culture that radiates a dream of an entirely new educational world, is to ensure each student continuously achieves one's highest aspirations while demonstrating responsibility to communities through a system distinguished by:

- Passion for continuous growth
- Humanitarian purpose
- Personal reflection which gives meaning to learning
- Individual empathetic agency
- Radical trust in self and others

Guiding Principles

- Does it advance our strategic plan?
- Does it honor agency?
- Does it leverage the strengths of the learner?
- Does it cultivate the learner?
- Does it ignite the application of learning?
- Does it ensure equity?
- Does it protect the well-being of the learner?

STRATEGIC PLANNING AND MISSION STATEMENT (CONTINUED)

Objectives

- All learners possess the capacity and resiliency to create opportunities and master challenges
- All learners continuously achieve their academic and personal goals
- Each learner leads beneficial change locally and globally

Strategies

Strategy #1:

- We will cultivate a holistic education system that unifies community members, parents, staff, and students.
 - o Results Statements:
 - We will create an integrated system of shared resources connecting our community with learning.
 - We will establish a culture of collaboration where activities and events are embedded throughout our community.
 - We will nurture an empathetic culture with a shared voice that creates and strengthens relationships in our community.
 - We will generate accessible communication practices that tell our collective story.

Strategy #2:

• Our system's dynamics will be distinguished by adopted guiding principles.

Strategy #3:

- We will ensure the individual agency conducive to student driven learning.
 - Results Statements:
 - Through guidance, reflection, collaboration, and self-direction, learners will have ownership over their learning.
 - We will create a competency driven system.
 - Reflection will serve to inspire and motivate learning.
 - All learners will have the freedom and support needed to pursue their passions and pathways in learning.
 - Each learner will take risks and develop a growth mindset.

Strategy #4:

- We will exude a presence that exhibits our uniqueness and indispensability.
 - Results Statements:
 - Farmington Area Public Schools will optimize communication between students, families, staff and the greater community.
 - Farmington Area Public Schools will grow in its ability to appreciate cultural and individual differences; and create bridges between all students, staff, families and the greater community.

STRATEGIC PLANNING AND MISSION STATEMENT (CONTINUED)

Strategies (Continued)

Strategy #5:

- We will give knowledge meaning.
 - o Results Statements:
 - All students have real-world learning experiences within and beyond the classroom through a personalized and individualized system.
 - We will create a system of competency based coursework with meaningful assessment.
 - All students discover, pursue, and reflect on personal educational goals through curiosity-driven learning experiences.

We will create flexible environments that support student driven learning.

STUDENT ASSESSMENT AND TESTING

Student academic growth and achievement in Farmington Area Public Schools is measured by various assessments, including federally mandated state assessments, NWEA-MAP tests, Pre-ACT, ACT and numerous classroom assessments. Results from these assessments are used to monitor individual student progress as well as building and district curriculum.

State Standardized Tests - The MCAs and ESSA

In a normal year, all students in Minnesota public schools are required to take either the Minnesota Comprehensive Assessments (MCA) or the equivalent Minnesota Test of Academic Skills (MTAS) in Reading (grades 3-8 and 10), Math (grades 3-8 and 11) and Science (grades 3, 5 and once in high school). The MCAs are criterion referenced tests that measure student achievement with respect to the state standards in each grade for that subject. Per the 3/25/20 executive order by Governor Walz, Farmington Public Schools were unable to administer the 2019-20 MCA/MTAS amidst the mandate that halted in-person school attendance.

Staff in each school have high expectations in the classroom, which are reflected in the annual school goals. Schools examine and analyze many forms of student achievement data and write goals specifically based for student progress.

Trends:

In response to the global pandemic and the Minnesota mandate to enact distance learning in the spring of 2020, Farmington was unable to administer the MCA or MTAS Math, Reading, & Science assessments to grade 3-11 students.

We are able to report the ACT assessment for our class of 2020 because most of these students took the test as juniors in 2019. Farmington's average ACT English score of 20.0 and Reading score of 21.8 exceed the national averages (ACT Profile Report-Graduating Class 2020) of 19.9 and 21.2, respectively when factoring each student's best performance (for those taking the exam more than once). These scores are similar to Farmington's class of 2019 average scores of 20.5 (English) and 21.5 (Reading).

STUDENT ASSESSMENT AND TESTING (CONTINUED)

State Standardized Tests – The MCAs and ESSA (Continued)

Farmington's average ACT Math score of 21.7 exceeds the national average of 20.2 by one and a half points when factoring each student's best performance (for those taking the exam more than once). Farmington's class of 2019 scored a similar average ACT score of 21.5.

Farmington's class of 2020 average Science ACT score of 21.7 exceeds the national average of 20.6 by a full point and Farmington's STEM ACT score of 21.9 tops the state average of 21.7 when factoring each student's best performance (for those taking the exam more than once). Similarly, our 2019 average Science and Stem ACT scores were 21.7 and 21.8, respectively.

MANAGEMENT SYSTEMS AND CONTROLS

The District is committed to developing, maintaining and improving effective management systems and controls. The District makes conscientious efforts to employ highly qualified employees through active recruitment and interview processes. Continuing professional education opportunities are provided to employees and supervisors are encouraged to provide imbedded professional development activities as a means to ensure that an environment of continuous improvement is fostered. Operations are annually evaluated to assure they function effectively and provide appropriate levels of supervision and segregation of duties. The District has documented its processing, recording and reconciling activities as it relates to financial activities with an internal control questionnaire. The documentation denotes responsibility levels, reporting requirements and timeliness of reconciliation activities.

Budget and Financial Management

The District's budget and financial management practices include the following:

<u>Budget Timeline</u> – Provides a timeline for the major processes related to the preparation, approval, execution and review of the District's fiscal year financial budget. The budget process includes the following activities:

<u>Budget Planning</u> – The District utilizes a five year financial planning model. The model includes an enrollment projection component. Funding and expenditure assumptions are built into the model which provides a detailed analysis of revenue and expenditure trends and fund equity. The model is updated and or revised as projections become actual audited numbers and assumptions become known facts.

<u>Budget Preparation</u> – The budget preparation cycle occurs during the 12 months prior to the District's upcoming fiscal year, which begins on the following July 1. Major processes during the budget preparation cycle include enrollment projections and the development of revenue and expenditure assumptions. Enrollment and other data are submitted to the State to generate both the local property tax levy as well as state and federal aid entitlement amounts for the upcoming year. Allocations of district resources to the various expenditure categories are based upon budget parameters and district priorities as included in the District's Strategic Plan. Recommendations and actions taken by the administration and the School Board during the budget cycle are included in the completed budget document. A preliminary financial and operation budget document is then submitted to the School Board for review and subsequent approval prior to July 1.

MANAGEMENT SYSTEMS AND CONTROLS (CONTINUED)

Budget and Financial Management (Continued)

<u>Budget Approval</u> – The School Board is required by *Minnesota Statutes* to adopt a preliminary budget prior to July 1. During the 12 month period that the budget is in place, the administration is directed to update the budget to reflect changes that have taken place after the original approval of the budget occurred. The adopted budget is typically revised to reflect enrollment changes, grant awards, employee contract settlements, and changes in estimates and projections that may have occurred since the budget was originally approved. The School Board receives periodic budget updates during the fiscal year.

<u>Budget Review</u> – During the fiscal year and at year-end, the actual financial results are compared to the budgeted amounts. Significant variations are investigated to determine if subsequent financial projections should be adjusted. In addition, as several state aid formulas are not finalized until statewide data is available, the District's administration is constantly reviewing historical and current data and trends to further refine its projection model for future budget cycles.

<u>Finance Committee</u> – The District has established a finance committee that consists of administration, School Board, staff, parents and community members. This committee reviews district financial data and provides input for budget considerations to the administration.

FINANCIAL REPORTING

This is the twelfth year the District has prepared a CAFR. The District was awarded a Certificate of Excellence in Financial Reporting from the Association of School Business Officials International for their 2019 CAFR.

The District did implement GASB Statement No. 74 and No. 75. GASB Statement No. 68 is an all-encompassing and sweeping change to financial reporting requirements for governments. Public school districts are required to report liabilities for future pensions that are provided through pension plans administered as trusts or equivalent arrangements.

ACCOMPLISHMENTS

Our district continues to be a national leader in work around creating a student centered learning environment. Over the past five year the district has hosted staff from over 150 school districts and other educational organizations.

Farmington Area Public Schools continue to have strong assessment results and are exceeding State standards.

We continue to grow as a community, have a strong financial position and strive to meet the needs of every student where they are at in their educational path.

ACKNOWLEDGEMENTS

The preparation of this report could not have been accomplished without the efforts of the District's Finance Office staff in providing complete and accurate data for this report. We would also like to express our appreciation to the School Board for their interest and support in planning and conducting the financial operation of the District in a responsible manner.

Respectfully submitted,

Jane A. Houska

Independent Auditor's Report

To the School Board Independent School District No. 192 Farmington, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 192, Farmington, Minnesota, as of and for the year ended June 30, 2020, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 192, Farmington, Minnesota, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Implementation of GASB 84

As discussed in Note 10 to the financial statements, the District has adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, which follows this report letter, and the Required Supplementary Information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Introductory Section, Supplementary Information identified in the Table of Contents and the Statistical Section are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information identified in the Table of Contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards general accepted in the United States of America. In our opinion, the accompanying supplementary information identified in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Matters (Continued)

Other Information (Continued)

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2020, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Minneapolis, Minnesota

Bergan KOV Ltd.

December 8, 2020

This section of the District's annual financial report presents a discussion and analysis of the District's financial performance during fiscal year ended June 30, 2020. Please read it in conjunction with the financial statements that immediately follow this section.

The MD&A is an element of required supplementary information specified in the GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis for State and Local Governments*, issued in June 1999. Certain comparative information between the current year (2019-2020) and the prior year (2018-2019) is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

- The District's net position increased \$5.5 million from current year activity ending the year at \$(53.7 million).
- The School Board approved the sale of \$6 million of General Obligation (G.O). Taxable Other Post Employment Benefits (OPEB) Bonds in March of 2009, which was half of the amount needed to fund the \$12 million liability at the time. As of June 30, 2020, the District currently has a net OPEB liability of \$16,305,918.
- The General Fund net change in fund balance increased by \$1,745,559, with an end of year balance of \$17.3 million.
- The Special Revenue Funds, which include Food Service and Community Service Funds, ended the year with positive fund balances of \$969,448 and \$466,633, respectively.
- The Capital Projects Fund reflects the spend down of the 2015 Facilities Bonds, related expenditures for building remodeling and renovation projects of \$8,605,587 and revenue of \$280,822 resulting from investment interest.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts: Independent Auditor's Report, required supplementary information, including the MD&A, the basic financial statements, and supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

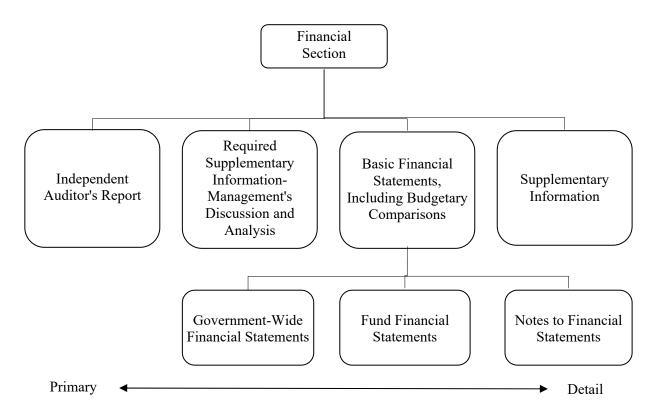

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

- Fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.
- Proprietary fund statements provide information about the District's self-insured medical and dental internal service funds.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

Figure A-1
Organization of the District's
Annual Financial Report

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Major Features of the Government-Wide and Fund Financial Statements

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and of information they contain. The remainder of this overview section of the MD&A highlights the structure and contents of each of the statements.

Figure A-2 Major Features of the Government-Wide and Fund Financial Statements							
	District Wide	Fund Financ	ial Statements				
	Statements	Governmental Funds	Fiduciary Funds				
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities monies				
Required Financial Statements	 Statement of Net Position Statement of Activities 	 Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balances 	 Statement of Fiduciary Net Position Statement of Changes in Fiduciary Net Position 				
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus				
Type of Asset/Liability Information	All assets and liabilities, both financial and capital, short-term and longterm	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both short-term and long- term; funds do not currently contain capital assets, although they can				
Type of Inflow/Outflow Information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All assets and liabilities, both short-term and long- term; funds do not currently contain capital assets, although they can				

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or declining, respectively.
- To assess the District's overall health, one needs to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are divided into two categories:

- Governmental Activities: Most of the District's basic services are included here, such as regular
 and special education, transportation and administration. Property taxes and state formula aid
 finance most of these activities.
- Business-Type Activities: The District charges fees to help it cover the costs of certain services it provides. For fiscal year 2019-2020, none of the District's financial activities were included in this category.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds, not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

FUND FINANCIAL STATEMENTS (CONTINUED)

The District has three kinds of funds:

- Governmental Funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can be readily converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, reconciliations are provided between the governmental funds and the government-wide statements, which do present a long-term focus.
- Fiduciary Funds: The District is the trustee, or fiduciary, for assets that belong to others such as the Agency Fund. The District established an agency fund in fiscal year 2004 and recorded fundraising activity in this Fund. In fiscal year 2009, the District established the Post Employment Benefits Irrevocable Trust Fund. This Fund was funded by the bond proceeds issued to fund the District's OPEB obligation. Payments due to employees will be paid out of the General Fund and are reimbursed by this Trust Fund. The District is responsible for ensuring the assets reported in the Agency Fund are used only for their intended purposes and by those to whom the assets belong. The District cannot use these funds to finance operations.
- Proprietary Funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The District uses internal service funds to report activities that provide supplies and services for its other programs and activities. The District currently has two internal service funds; the Self-Insured Dental Fund and Self-Insured Medical Fund.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position

The District's total net position as of June 30, 2020, was \$(53,669,417) which is summarized in Figure A-3 below.

Figure A-3
Net Position – Governmental

	2019-2020	2018-2019	Percentage Change

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (CONTINUED)

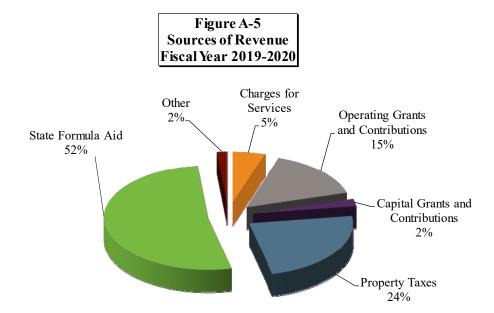

Net Position (Continued)

The change in net position for 2019-2020 was \$5,530,198. The change is based on total revenues of \$112,534,646 and total expenses of \$107,004,448. Figure A-4 below shows the breakdown into the various revenue and expense categories. Comparisons are made to the prior year in an effort to quantify and explain changes that took place in the current fiscal year.

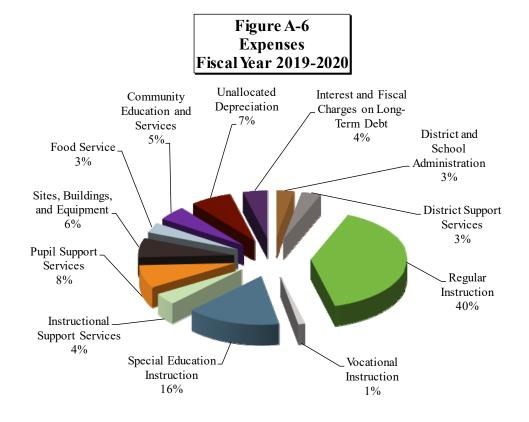

Figure A-4 Change in Net Position

Revenues	2019-2020	2018-2019	Percentage Change
Program revenues			
Charges for services	\$ 5,708,799	\$ 7,131,708	-19.95%

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (CONTINUED)

As you can see Figure A-5, state aid, operating grants and contributions, and property taxes accounted for most of the District's revenue, with state aid representing 52%, operating grants and contributions 15%, and property taxes 24%. The remainder comes from fees charged for services and other sources.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (CONTINUED)

The major category of District's expenses is related to instructing students. Figure A-6 indicates the breakdown of the total expenses on a percentage basis. The direct instruction categories of expense, which include regular instruction, vocational instruction, and special education instruction, represent approximately 57% of the total expenses. The expenses for sites, buildings, and equipment amount to 6% and interest and fiscal charges on long-term debt amount to 4% which reflect costs for a building program designed to meet increasing enrollment each year. The indirect categories of instructional and pupil support (which includes student transportation) amount to about 12% and administration and District support services combined represented 6% of the total expenses for the year. Other major categories of expense included food service, community service, and unallocated depreciation.

GOVERNMENTAL ACTIVITIES

The District continues to invest in instructional improvements, while making reductions in those areas that do not directly affect the instructional setting.

The negative net position balance of the District is the result of debt service scheduled payments that will become positive as years progress and larger principal payments are made. The payments for the principal will come from future tax levies.

Figure A-7 represents the total cost of the District's functions and programs. The table also shows each function and program's net cost which represents the total cost less fees and intergovernmental aid provided for specific programs. The net cost shows the financial burden placed on the state and local taxpayers by each of these functions and programs.

Figure A-7

Total	\$	107,004,448	\$	81,432,899	\$	77,401,025	\$	51,778,513

GOVERNMENTAL ACTIVITIES (CONTINUED)

The cost of all governmental activities this year was \$107,004,448.

- The users of the District's programs through fees and other charges financed \$5,708,799, or 5%, of the cost.
- The federal and state governments subsidized specific programs with grants and contributions totaling \$19,862,750, or 17.6%, of the cost.
- State and local taxpayers, however, financed the majority of the costs. State aid and local property taxes as determined by the State Legislature through the state-wide funding formulas, amounted to \$58,542,662 and \$26,634,534, respectively, for a total of \$85,177,196, or 75.6%, of the District's total costs.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported combined fund balances of \$34,724,021.

The General Fund operations of the District showed an unassigned fund balance increase of \$719,537. The increase in the District's financial position is largely attributable to expenditures coming in below projections. The District's operating capital showed an increase of \$265,884.

The Debt Service Fund operations showed a fund balance decrease of \$(933,159).

The Capital Project Fund showed a decrease in fund balance of \$8,324,765 resulting from the completion of a HVAC project from our 2019 facilities maintenance bonds and expenditures related to the completion of projects listed in our November 2015 Building Bond election and issuing .

GENERAL FUND BUDGETARY HIGHLIGHTS

Revenue – Actual General Fund revenue was \$3,064,365 more than the projected budget. Of this total, revenue from state sources was more than projected due to conservative enrollment and special education numbers. The original budget was amended during the year for known changes in funding estimates.

Expenditures – Actual General Fund expenditures were \$5,203,298 more than projected. Of this total, \$3,336,440 relates to a new capital lease for iPads. The remaining \$1,866,858, is related to additional investments in staff and resources to further meet the needs of the students in the classroom and instructional areas. The original budget was amended during the year for known changes in current year obligations.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of 2020, the District had invested \$294,872,406 in a broad range of capital assets, including school buildings, athletic facilities, computer and audio-visual equipment and administrative offices (See Figure A-8 on the following page). Depreciation expense for the year was \$8,382,546 with total accumulated depreciation amounting to \$115,430,777 (more detailed information for capital assets can be found in Note 3 to the financial statements).

Figure A-8 Capital Assets

Total	\$ 229,260,233	\$ 243,549,823	-5.87%

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time, these financial statements were prepared and audited, the District would like to note existing circumstances that could affect its financial health in the future:

- The District sold \$6 million of G.O. Taxable OPEB bonds in March 2009. This amount was half of the amount required to fully fund the actuarial liability.
- At the State and Federal level, they continue to underfund our Special Education needs.
- The global pandemic, COVID-19, has caused uncertainty in our economy, our state and our education system.
- The district continues to see residential growth in the near future. Fairhill development will bring 220 homes, Regatta development is plotted for 61 homes, Pleasant Run for an additional 99 homes, Sapphire Lake is set for 130 single family homes, Knob Hill is being developed for 67 single family homes, North Creek is set for 80 single family homes and 45 townhomes, Cedar Lake is in the beginning phases of development discussing 82 twin homes, 155 villas and 136 single family homes and Whispering Fields is in the final stages of approval with 119 single family homes with models opening in January 2022.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Finance (phone number 651-463-5043) at the District Service Center for Farmington Area Public Schools located at 20655 Flagstaff Ave, Farmington, Minnesota 55024.

Independent School District No. 192 Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2020

Total fund balances - governmental funds	\$	34,724,021
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in governmental funds.		
Cost of capital assets		294,872,406
Less accumulated depreciation	((115,430,777)
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:		
Bond principal payable		(166,590,000)
Unamortized bond premium and discount		(9,799,648)
Deferred charge on refunding		(1,556,183)
Capital lease payable		(2,502,330)
Compensated absences payable		(950,322)
Net OPEB liability		(16,305,918)
Net pension liability		(52,298,600)
Deferred outflows of resources and deferred inflows of resources are created as a result of various		
differences related to pensions that are not recognized in the governmental funds.		
Deferred outflows of resources related to pensions		44,812,064
Deferred inflows of resources related to pensions		(64,608,445)
Deferred outflows of resources related to OPEB		1,389,454
Deferred inflows of resources related to OPEB		(498,200)
Delinquent property taxes receivables will be collected in subsequent years, but are not available		
soon enough to pay for the current period's expenditures and, therefore, are unavailable in the funds.		325,888
The self insured medical and dental internal service funds are used by management to charge the		
costs of the self-insured plans. The assets and liabilities of the internal service funds are included		
included in governmental activities in the Statement of Net Position and interfund activity is removed.		3,479,927
Governmental funds do not report a liability for accrued interest on bonds until due and payable.	-	(2,732,754)

Independent School District No. 192 Reconciliation of the Statement of Revenues, Expenditures, and changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2020

Net change in fund balances - total governmental funds	\$ (8,215,311)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense.	
Capital outlays are reported in governmental funds as expenditures. However, in the Statement Depreciation expense	13,117,967 (8,382,546)
Compensated absences are recognized as paid in the governmental funds but recognized as the expense is incurred in the Statement of Activities.	2,698
Principal payments on long-term debt are recognized as expenditures in the governmental funds but have no effect on net position in the Statement of Activities.	15,079,110
Refunded bond payments on long-term debt are recognized as an other financing use in the governmental funds but have no effect on net position in the statement of activities.	6,105,000
Governmental funds recognize OPEB contributions as expenditures at the time of payment whereas the Statement of Activities factors in items related to OPEB on a full accrual perspective.	(450,494)
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due	
and thus requires use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	377,319
Governmental funds report the effects of bond premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. Net premium on new debt issuance and related amortization	1,637,118
The issuance of long-term debt provides current financial resources to governmental funds and	1,037,110
has no effect on net position. These amounts are reported in the governmental funds as a source of financing. These amounts are not shown as revenues in the Statement of Activities, but rather constitute long-term liabilities in the Statement of Net Position.	
Bond issuance Capital lease issuance	(5,715,000) (3,336,440)
The self-insured medical and dental internal service funds are used by management to charge the costs of the self insured plans. The increase in net position is reported within the governmental activities in the Statement of Activities.	521,190
Governmental funds recognize pension contributions as expenditures at the time of payment in the funds whereas the Statement of Activities factors in differences between actual and expected contributions and earnings on plan investments as well as changes in proportion.	(5,208,741)
Delinquent property taxes receivable will be collected in subsequent years, but are not available soon enough to pay for the current period's expenditures and, therefore, are unavailable in the funds.	(1,672)
Change in net position - governmental activities	\$ 5,530,198

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District operates under a school board form of government for the purpose of providing educational services to individuals within the District areas. The governing body consists of a six member board elected by the voters of the District to serve four-year staggered terms.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the more significant policies.

A. Reporting Entity

The financial statements present the District and its component units. The District includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate from such. Component units are legally separate organizations for which the elected officials of the District are financially accountable and are included within the financial statements of the District because of the significance of their operational or financial relationships with the District.

The District is considered financially accountable for a component unit if it appoints a voting majority of the organization's governing body and it is able to impose its will on the organization by significantly influencing the programs, projects, activities, or level of services performed or provided by the organization, or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on, the District.

As a result of applying the component unit definition criteria above, it has been determined the District has no component units.

As of July 1, 2019, the student activity accounts of the District have been taken under board control and will not be reported separately.

B. Basic Financial Statement Information

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. The fiduciary funds are only reported in the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position at the fund financial statement level.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basic Financial Statement Information (Continued)

The District applies restricted resources first when an expense is incurred for a purpose for which both restricted and unrestricted net position are available. Depreciation expense that can be specifically identified by function is included in the direct expenses of that function. Depreciation expense relating to assets that serve multiple functions is presented as unallocated depreciation in the Statement of Activities. Interest on general long-term debt is considered an indirect expense and is reported separately in the Statement of Activities. The effect of interfund activity has been removed from these statements.

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The Private Purpose Trust and Custodial Funds are presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the District, these funds are not incorporated into the government-wide statements.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and Post Employment Benefits Irrevocable Trust Fund. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The Agency Fund is reported using the accrual basis of accounting. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner.

1. Revenue Recognition

Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to *Minnesota Statutes* and accounting principles generally accepted in the United States of America. *Minnesota Statutes* include state aid funding formulas for specific years. Federal revenue is recorded in the year in which the related expenditure is made. Other revenue is considered available if collected within 60 days.

2. Recording of Expenditures

Expenditures are generally recorded when a liability is incurred. The exceptions to this general rule are that interest and principal expenditures in the Debt Service Fund, compensated absences, and claims and judgments are recognized when payment is due.

The District applies restricted resources first when an expenditure is incurred for a purpose for which both restricted and unrestricted fund balances are available. Further, the District applies unrestricted funds in this order if various levels of fund balances exist: committed, assigned, and unassigned.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus and Basis of Accounting (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Internal Service Fund is employee and District contributions. Operating expenses for proprietary funds include claims paid and administrative expense. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Description of Funds:

Major Funds:

General Fund – This fund is the basic operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund – This fund is used to account for the accumulation of resources for, and payment of, general obligation (G.O.) bond and state loan principal, interest, and related costs.

Capital Projects – Building Construction Fund – This fund is used to account for financial resources used for the acquisition or construction of major capital facilities authorized by bond issue.

Nonmajor Funds:

Food Service Special Revenue Fund – This fund is used to account for food service revenues and expenditures.

Community Service Special Revenue Fund – This fund is used to account for services provided to residents in the areas of community education, school readiness, early childhood, and family education, or other similar services.

Post Employment Benefits Debt Service Fund – This fund is used to record levy proceeds and the payment of the OPEB bond's principal and interest related costs.

Fiduciary Funds:

OPEB Trust Fund – This fund is used to account for the financial resources held by the District in a trustee capacity to be used by the District to pay OPEB benefits to employees.

Custodial Fund – This fund is custodial in nature and does not represent results of operations or have a measurement focus. This fund accounts for assets held by the District in a custodial capacity as a result of activities of external groups.

Proprietary Funds:

Self Insured Medical Internal Service Fund – This fund is used to account for self-insured employee medical costs and related stop loss insurance.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus and Basis of Accounting (Continued)

Description of Funds (Continued):

Proprietary Funds: (Continued)

Self Insured Dental Internal Service Fund – This fund is used to account for self-insured employee dental costs and related stop loss insurance.

D. Deposits and Investments

The District's total deposits and investments are comprised of two major components, each with its own set of legal and contractual provisions as described on the following pages.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments held by investment pools are measured at amortized cost.

District Governmental Funds

Cash and investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the individual funds based on the average of month-end cash and investment balances. The investments of the capital projects building construction funds are not pooled and earnings on these investments are allocated directly to that fund.

Cash and investments at June 30, 2020, were comprised of deposits and shares in the Minnesota School District Liquid Asset Fund (MSDLAF), certificates of deposit, government securities, and shares in the Minnesota Trust (MNTrust) Term Series.

Minnesota Statutes authorizes the District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, shares of investment companies whose only investments are in the aforementioned securities, obligations of the State of Minnesota or its municipalities, bankers' acceptances, future contracts, repurchase and reverse repurchase agreements, and commercial paper of the highest quality with a maturity of no longer than 270 days.

In accordance with GASB Statement No. 79, the various MSDLAF and MNTrust securities are valued at amortized cost, which approximates fair value. There are no restrictions or limitations on withdrawals from the MSDLAF. Investments in the MSDLAF MAX must be deposited for a minimum of 14 calendar days with the exception of direct investments of funds distributed by the State of Minnesota. Withdrawals prior to the 14-day restriction period may be subject to a penalty and there is a 24 hour hold on all requests for redemptions. MSDLAF+ Term investments have a maturity of 60 days to one year and early withdrawal may result in substantial early redemption penalties. Seven days' notice of redemption is required for withdrawals of investments in the MNTrust Term Series withdrawn prior to the maturity date of that series. A penalty could be assessed as necessary to recoup the Series for any charges, losses, and other costs attributable to the early redemption.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Deposits and Investments (Continued)

Other Post Employment Benefits Trust Fund

These funds represent investments administered by the District's OPEB fund investment managers. As of June 30, 2020, they were comprised of mutual funds. The District's investment policy extends to the OPEB Trust Fund investments.

Minnesota Statutes authorize the OPEB Trust Fund to invest in obligations of the U.S. Treasury, agencies and instrumentalities, shares of investment companies whose only investments are in the aforementioned securities, obligations of the State of Minnesota or its municipalities, bankers' acceptances, future contracts, corporate bonds, common stock and foreign stock of the highest quality, mutual funds, repurchase and reverse agreements, commercial paper of the highest quality with a maturity no longer than 270 days and in the State Board of Investments. Investments are stated at fair value.

E. Property Tax Receivable

Current property taxes receivable are recorded for taxes certified the previous December and collectible in the current calendar year, which have not been received by the District. Delinquent property taxes receivable represents uncollected taxes for the past six years and is deferred and included in the deferred inflows of resources section of the fund financial statements because they are not available to finance the operations of the District in the current year.

F. Property Taxes Levied for Subsequent Year's Expenditures

Property taxes levied for subsequent year's expenditures consist principally of property taxes levied in the current year which will be collected and recognized as revenue in the District's following year to properly match those revenues with the budgeted expenditures for which they were levied. This amount is equal to the amount levied by the School Board in December 2019, less various components and their related adjustments as mandated by the state. These portions of that levy were recognized as revenue in fiscal year 2020. The remaining portion of the levy will be recognized when measurable and available.

G. Inventories

Inventories of commodities donated directly by the U.S. Department of Agriculture are recorded at market value. Other inventories are stated at cost as determined on a first-in, first-out (FIFO) basis. Inventories are recorded as expenditures when consumed rather than when purchased.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as an expenditure at the time of consumption.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Property Taxes

The District levies its property tax during the month of December. December 28 is the last day the District can certify a tax levy to the County Auditor. Such taxes become a lien on January 1. The property tax is recorded as revenue when it becomes measurable and available. Dakota County is the collecting agency for the levy and remits the collections to the District three times a year. The Tax levy notice is mailed in March with the first half of the payment due on May 15 and the second half due on October 15. Delinquent collections for November and December are received the following January.

A portion of property taxes levied is paid by the State of Minnesota through various tax credits, which are included in revenue from state sources in the financial statements.

J. Capital Assets

Capital assets are recorded in the government-wide financial statements, but are not reported in the fund financial statements.

Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at its acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings and 5 to 15 years for equipment.

Capital assets not being depreciated include land. The District does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

K. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Financial Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has two items that qualify for reporting in this category. Deferred outflows of resources related to pensions are reported in the government-wide Statement of Net Position. Deferred outflows of resources related to pensions and OPEB is recorded for various estimate differences that will be amortized and recognized over future years.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the Statement of Financial Position and fund financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has five types of items which qualify for reporting in this category. The first item, unavailable revenue from property taxes, arises under a modified accrual basis of accounting and is reported only in the Governmental Funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available. The second item is property taxes levied for subsequent years, which represent property taxes received or reported as a receivable before the period for which the taxes are levied, and is reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the Governmental Funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied and in the governmental fund financial statements during the year for which they are levied, if available. Deferred inflows of resources related to pensions is recorded on the government-wide statements for various estimate differences that will be amortized and recognized over future years. The fourth, a deferred charge on refunding, results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt is recorded on the government-wide. The fifth, Deferred inflows of resources related to OPEB, is recorded for various estimate differences that will be amortized and recognized over future years.

L. Long-Term Obligations

In the government-wide financial statements long-term debt and other long term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an expenditure/expense in the period the bond is issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Compensated Absences

1. Vacation and Sick Pay

Eligible District employees earn vacation based upon years of service according to the various contracts. Vacation must be used by August 31 of the following year in which it was earned. An employee who is unable to use their vacation may, with the agreement of their immediate supervisor and human resources, negotiate an extension of the time for unused vacation.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Compensated Absences (Continued)

1. Vacation and Sick Pay (Continued)

Substantially all District employees are entitled to sick leave at various rates. Employees are not compensated for unused sick leave upon termination of employment, unless taken in conjunction with severance pay as described in Note 1.N. Sick leave pay taken, including related benefits, is shown as an expenditure in the year paid.

N. Post Employment Severance Benefits

Post employment severance benefits consist of lump sum early retirement incentive payments.

1. Convertible Sick Leave

Certain bargaining unit members are eligible to be compensated for unused accumulated sick leave upon termination, subject to certain conditions. The amount of the retirement payment is calculated by converting a portion of accrued sick leave. An accrual is made in the governmental fund incurring the liability at the time of termination. The amount of yearly retirement incentive payment that is based on convertible sick leave is recorded as a liability in the Statement of Net Position as it is earned and when it becomes probable that it will vest at some point in the future.

O. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

TRA has a special funding situation created by direct aid contributions made by the State of Minnesota, City of Minneapolis, and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006. A second direct aid source is from the State of Minnesota for the merger of the Duluth Teacher's Retirement Fund Association (DTRFA) in 2015.

P. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District and additions to/deductions from the District's fiduciary net position have been determined on the same basis as they are reported by the District. For this purpose, the District recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Fund Equity

In the fund financial statements, governmental funds report various levels of spending constraints.

- Nonspendable Fund Balances These are amounts that cannot be spent because they are either
 not in spendable form as they are legally or contractually required to be maintained intact. They
 include items that are inherently unspendable, such as, but not limited to, inventories, prepaid
 items, long-term receivables, non-financial assets held for resale, or the permanent principal of
 endowment funds.
- Restricted Fund Balances These amounts are comprised of funds that have legally enforceable
 constraints placed on their use that either are externally imposed by resource providers or
 creditors (such as through debt covenants), grantors, contributors, voters, or laws or regulations
 of other governments, or are imposed by law through constitutional provisions or enabling
 legislation.
- Committed Fund Balances These amounts are comprised of unrestricted funds used for specific
 purposes pursuant to constraints imposed by formal action of the School Board and that remain
 binding unless removed by the School Board by subsequent formal action. The formal action to
 commit a fund balance must occur prior to year-end; however, the specific amounts actually
 committed can be determined in the subsequent year.
- Assigned Fund Balances These amounts are comprised of unrestricted funds constrained by the District's intent that they will be used for specific purposes, but that do not meet the criteria to be classified as restricted or committed. In funds other than the General Fund, the assigned fund balance represents the remaining amount that is not restricted or committed. The assigned fund balance category will cover the portion of a fund balance that reflects the District's intended use of those resources. The action to assign fund balance may be taken after the end of the year. The School board, by majority vote, may assign balances to be used for specific purposes. The board also delegated the power to assign fund balances to the Superintendent or designee.
- Unassigned Fund Balances Residual amount in the General Fund not reported in any other classification, available for expenditure of any purpose. Also negative unassigned fund balance may be reported in other governmental funds if expenditures exceeded the restricted, committed, or assigned amounts available to those purposes.
- Minimum Fund Balance The District will strive to maintain a minimum unassigned General Fund balance of 8-12% of the annual budget.

R. Net Position

Net position represents the difference between assets and deferred outflows of resources; and liabilities and deferred inflows of resources in the government-wide financial statements. Net investments in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net Position is reported as restricted in the government-wide financial statement when there are limitations on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

S. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of expenditures/expense during the reporting period. Actual results could differ from those estimates.

T. Budgetary Information

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to July 1, the School Superintendent submits to the School Board, a proposed operating budget for the year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. The Superintendent is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the School Board.
- 3. Formal budgetary integration is employed as a management control device during the year for all governmental funds.
- 4. Budgets for the funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
- 5. Budgets are as originally adopted or as amended by the School Board. Budgeted expenditure appropriations lapse at year-end.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Deposits

In accordance with applicable *Minnesota Statutes*, the District maintains deposits at depository banks authorized by the School Board.

Custodial Credit Risk – Deposits: For a deposit, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a deposit policy that requires the District's deposits be collateralized as required by *Minnesota Statutes* for an amount exceeding federal deposit coverage. *Minnesota Statutes* require all deposits be protected by federal depository insurance, corporate surety bonds, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by Federal Deposit Insurance Corporation (FDIC) insurance or corporate surety bonds. As of June 30, 2020, the District had a bank balance of \$24,660,344.

Checking accounts	\$ 2,203,450
Cerficates of deposit	11,770,532
Cerficates of deposit - OPEB	1,512,000
Scholarship account	14,564
Savings deposit accounts	9,264,896
Petty cash	1,677
Total deposits	\$ 24,767,119

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

B. Investments

District Funds Other than OPEB Trust Fund

As of June 30, 2020, the District had the following investments:

	Amount	Maturity (Years)	Credit Rating	Level
Brokered Money Market Accounts	\$ 16,135,724	N/A	N/A	N/A
Term Series	8,000,000	0.04	AAAm	N/A
MSDLAF + Liquid Class	899,926	N/A	AAAm	N/A
MSDLAF + Max Class	2	N/A	AAAm	N/A
US Treasuery and Agencies	500,815	0.13	Aaa	2
Total Investments	\$ 25,536,467			

At June 30, 2020, the District has a formal deposit and investment policy in place to address the following risks:

Credit Risk: This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. *Minnesota Statutes* 118A.04 and 118A.05 limit investments to the top two rating issued by nationally recognized statistical rating organizations. The District's investment policy limits investments to those specified in the above statutes. As of June 30, 2020, the District's investments in MSDLAF and MSDLAF+ Max were rated AAAm by Standard & Poor's (S&P). The District's investments in certificates of deposit are not rated.

Concentration of Credit Risk: This is the risk of loss attributed to the magnitude of an investment in a single issuer. The District's investment policy states the District will diversify its investment to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual financial institutions, or maturities. None of the District's investments were exposed to concentration of credit risk at June 30, 2020.

Interest Rate Risk: This is the risk that market value of securities will fall due to the changes in market interest rates. The District's policy states investment maturities should be scheduled to coincide with projected District cash flow needs, taking into account large routine or scheduled expenditures, as well as anticipated receipt dates of anticipated revenues. The policy also indicates investments shall be managed to attain a market rate of return through various economic and budgetary cycles, while preserving and protecting the capital in the investment portfolio and taking into account constraints on risk and cash flow requirements.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

B. Investments (Continued)

District Funds Other than OPEB Trust Fund (Continued)

Custodial Credit Risk – Investments: This is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of it investments or collateral securities that are in the possession of an outside party. The District's investment policy on custodial credit risk states securities will be held in third party safekeeping by an institution designated as custodial agent. The custodial agent shall issue a safe keeping receipt to the District listing pertinent information related to the securities held.

The District has the following recurring fair value measurements as of June 30, 2020:

• \$500,815 of investments are valued using a quoted market prices (Level 2 inputs).

1. OPEB Trust Fund

As of June 30, 2020, the market values, duration, and percent allocation of the District's OPEB Trust investments was as follows:

Investment Type	Amount	Weighted Average Maturity (Years)	Credit Rating	Level
OPEB Investments				
Brokered Money Market	\$ 514,395	N/A	N/A	N/A
Municipal Bonds	 822,509	1.71	Aa3	2
Total Investments	\$ 1,336,904			

The District has the following recurring fair value measurements as of June 30, 2020:

• \$822,509 of investments are valued using a quoted market prices (Level 2 inputs)

C. Deposits and Investments

Summary of cash, deposits, and investments as of June 30, 2020:

District Governmental Funds	
Deposits (Note 3.A.)	\$ 23,255,119
Investments (Note 3.B.)	25,536,467
OPEB Trust Fund	
Deposits (Note 3.A.)	1,512,000
Investments (Note 3.B.)	1,336,904
Total deposits and investments	\$ 51,640,490

69,055,000	8,617,375	77,672,375
14,870,000	605,100	15,475,100
\$ 166,590,000	\$ 34,474,998	\$ 201,064,998
9,799,648		9,799,648
\$ 176,389,648	\$ 34,474,998	\$ 210,864,646
	Principal \$ 15,315,000 16,895,000 17,780,000 17,330,000 15,345,000 69,055,000 14,870,000 \$ 166,590,000	\$ 15,315,000 \$ 6,571,946 16,895,000 5,844,491 17,780,000 5,060,161 17,330,000 4,233,175 15,345,000 3,542,750 69,055,000 8,617,375 14,870,000 605,100 \$ 166,590,000 \$ 34,474,998

D. Capital Lease Liability

The District entered into a lease purchase agreement on October 23, 2019, with Apple, Inc. for computer equipment. The capital lease liability and corresponding capital assets totaled \$3,336,440. The capital lease agreement includes annual principal payments of \$834,110 with the final payment due on July 11, 2022. The agreement provides 0% interest. The capital lease liability at June 30, 2020 is \$2,502,330 and the net book value of related computer equipment is \$2,780,366.

NOTE 5 – FUND BALANCES/NET POSITION

Certain portions of fund balance are restricted based on state requirements to track special program funding, to provide for funding on certain long-term liabilities or as required by other outside parties.

Fund Equity

Fund equity balances are classified as follows to reflect the limitations and restrictions of the respective funds.

A. Restricted Fund Balance

	General Fund	Debt Service	Capital Projects	Other Nonmajor Funds	Total
Nonspendable for Inventory Prepaid items	\$ 36,141 762,523	\$ -	\$ -	\$ 119,690 34,466	\$ 155,831 796,989

Nonspendable for Inventory – This balance represents the portion of fund balance that is not available as amounts have already been spent on inventory.

NOTE 5 – FUND BALANCES/NET POSITION (CONTINUED)

A. Restricted Fund Balance (Continued)

Nonspendable for Prepaid Items – This balance represents the portion of fund balance that is not available as the amounts have already been spent by the District on items for the next year.

Restricted for Student Activities – This balance represents available resources to be used for the extracurricular activity funds raised by the students.

Restricted for Safe Schools – Crime Levy – The unspent resources available from the levy must be reserved in this account for future use.

Restricted for Staff Development – This balance represents unspent staff development revenues set aside from general education revenue that were restricted for staff development related to Finance Code 316. Expenditures for staff development must equal at least 2% of the basic general education revenue, unless stipulations are met (Minnesota Statutes 122A.61, subdivision 1).

Restricted for Medical Assistance – This balance represents available resources to be used for medical assistance expenditures (*Minnesota Statutes* 125A.21, subd. 3).

Restricted for Operating Capital – This balance represents available resources in the General Fund to be used to purchase equipment and facilities.

Restricted for Long-term Facilities Maintenance (LTFM) – This balance represents available resources to be used for LTFM projects in accordance with the 10-year plan (*Minnesota Statutes* 123B.595, subd. 12).

Restricted for Community Education – This balance represents the resources available to provide programming such as: nonvocational, recreational and leisure time activities, programs for adults with disabilities, noncredit summer programs, adult basic education programs, youth development and youth service programming, early childhood and family education, and extended day programs.

Restricted for School Readiness – This balance represents the resources available to provide for services for school readiness programs. Related to Finance Code 344, School Readiness *Minnesota Statutes* 124D.16.

Restricted for Adult Basic Education – This account will represent the balance of carryover monies for all activity involving adult basic education. This would include all state aid and any grants or local funding used in support of ABE.

Restricted for Food Service – This balance represents the accumulation of the activity to provide the food service program.

Restricted for Community Service – This balance represents the positive fund balance of the Community Service Fund.

NOTE 5 – FUND BALANCES/NET POSITION (CONTINUED)

A. Restricted Fund Balance (Continued)

Restricted for Debt Service – This balance represents the resources available for the payment of G.O. bond principal, interest, and related costs.

Restricted for Capital Projects – This balance represents accumulated resources for capital projects.

Restricted for Early Childhood and Family Education – This balance represents the resources available to provide for services for early childhood and family education programming. While the state mandates tracking this restriction regardless of whether it has a negative balance, accounting principles generally accepted in the United States of America do not permit a negative restricted presentation.

B. Net Position

Net Investment in Capital Assets – This amount represents the net book value of the District's capital assets less the balance of outstanding debt used to acquire them.

Restricted for Debt Service – This amount represents resources restricted for future debt service in accordance with bond covenants and other agreements.

Restricted for Other Purpose – This amount represents total positive General Fund restricted fund balances, plus the fund balances in the Community Service and Food Service Funds.

NOTE 6 - DEFINED BENEFIT PENSION PLANS - STATE-WIDE

The District participates in various pension plans, total pension expense for the year ended June 30, 2020, was \$9,611,560. The components of pension expense are noted in the following plan summaries.

The General Fund typically liquidates the Liability related to the pensions.

Teachers' Retirement Association

A. Plan Description

The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing, defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with *Minnesota Statutes*, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools and certain TRA-covered educational institutions maintained by the state are required to be TRA members (except those teachers employed by St. Paul Schools or Minnesota State Colleges and Universities). Educators first hired by Minnesota State may elect either TRA coverage or coverage through the Define Contribution Plan (DCR) administered by the State of Minnesota.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

B. Benefits Provided

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by *Minnesota Statute* and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier 1 Benefits

Tier 1	Step Rate Formula	Percentage
Basic	First ten years of service	2.2% per year
Dasic	All years after	2.7% per year
Coordinated	First ten years if service years are up to July 1, 2006	1.2% per year
	First ten years if service years are July 1, 2006, or after	1.4% per year
	All other years of service if service years are up to July 1, 2006	1.7% per year
	All other years of service if service years are July 1, 2006, or after	1.9% per year

With these provisions:

- Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- 3% per year early retirement reduction factor for all years under normal retirement age.
- Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7% per year for coordinated members and 2.7% per year for basic members is applied. For years of service July 1, 2006, and after, a level formula of 1.9% per year for Coordinated members and 2.7% for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under *Minnesota Statute*. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

B. Benefits Provided (Continued)

Tier II Benefits (Continued)

Members first employed after June 30, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features.

Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits but not yet receiving them are bound by the plan provisions in effect at the time they last terminated their public service.

C. Contribution Rate

Per *Minnesota Statutes*, Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year ended June 30, 2018, June 30, 2019, and June 30, 2020, were:

	June 30, 2018		June 30	0, 2019	June 30, 2020		
	Employee	Employer	Employee	Employer	Employee	Employer	
Basic	11.0%	11.5%	11.0%	11.71%	11.0%	11.92%	
Coordinated	7.5%	7.5%	7.5%	7.71%	7.5%	7.92%	

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

C. Contribution Rate (Continued)

The following is a reconciliation of employer contributions in TRA's CAFR "Statement of Changes in Fiduciary Net Position" to the employer contributions used in Schedule of Employer and Non-Employer Pension Allocations. Amounts are reported in thousands.

Employer contributions reported in TRA's CAFR	
Statement of Changes in Fiduciary Net Position	\$ 403,300
Deduct employer contributions not related to future	
contribution efforts	(688)
Deduct TRA's contributions not included in allocation	(486)
Total employer contributions	402,126
Total employer contributions	402,120
Total non-employer contributions	35,588
Total contributions reported in Schedule of Employer and	
Non-Employer Allocations	\$ 437,714

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in the allocations. TRA has rounded percentage amounts to the nearest ten thousandths.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

D. Actuarial Assumptions

The total pension liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Key Methods and Assumptions Used in Valuation of Total Pension Liability

Actuarial Information

Valuation date July 1, 2019 Experience study June 5, 2015

November 6, 2017 (economic assumptions)

Actuarial cost method Entry Age Normal

Actuarial assumptions

Investment rate of return 7.50% Price inflation 2.50%

Wage growth rate 2.85% before July 1, 2028 and 3.25% thereafter

Projected salary increase 2.85% to 8.85% before July 1, 2028 and

3.25% to 9.25% thereafter

Cost of living adjustment 1.0% for January 2019 through January 2023, then

increasing by 0.1% each year up to 1.5% annually.

Mortality Assumptions

Pre-retirement RP 2014 white collar employee table, male rates set back

six years and female rates set back five years. Generational projection uses the MP 2015 scale.

Post-retirement RP 2014 white collar annuitant table, male rates set back

three years and female rates set back three years, with further adjustments of the rates. Generational projections

uses the MP 2015 scale.

Post-disability RP 2014 disabled retiree mortality table, without

adjustment.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

D. Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	35.5 %	5.10 %
International equity	17.5	5.30
Private markets	25.0	5.90
Fixed income	20.0	0.75
Unallocated cash	2.0	0.00
Total	100 %	

The TRA actuary has determined the average of the expected remaining services lives of all members for fiscal year 2016 is six years. The "Difference Between Expected and Actual Experience," "Changes of Assumptions," and "Changes in Proportion" use the amortization period of six years in the schedule presented. The amortization period for "Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments" is over a period of five years as required by GASB 68.

Changes in actuarial assumptions since the 2018 valuation:

- The cost of living adjustment (COLA) was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

D. Actuarial Assumptions (Continued)

- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019, and ending July 1, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to 0.0% beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers was reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

E. Discount Rate

The discount rate used to measure the total pension liability was 7.5%. There was no change since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal 2019 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate (SEIR).

F. Net Pension Liability

On June 30, 2020, the District reported a liability of \$44,458,796 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis, and Minneapolis School District. District's proportionate share was 0.6975% at the end of the measurement period and 0.6849% for the beginning of the year.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid and total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of net pension liability \$ 44,458,796

State's proportionate share of the net pension
liability associated with the District 3,934,331

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

F. Net Pension Liability (Continued)

For the year ended June 30, 2020, the District recognized pension expense of \$8,762,142. It also recognized \$299,056 as an increase to this pension expense for the support provided by direct aid.

On June 30, 2020, the District had deferred resources related to pensions from the following sources:

	Deferred Outflows of Resources			Deferred Inflows of Resources	
Differences between expected and actual experience	\$	5,911	\$	1,062,347	
Net difference between projected and actual					
earnings on plan investment		-		3,727,773	
Changes of assumptions	34	1,295,366		57,816,174	
Changes in proportion	(5,192,669		243,315	
Contributions to TRA subsequent to the measurement date	3	3,291,874		-	
Total	\$ 43	3,785,820	\$	62,849,609	

\$3,291,874 reported as deferred outflows of resources related to pensions resulting from District contributions to TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and (deferred inflows of resources) will be recognized in pension expense as follows:

	Pension
Year Ended	Expense
June 30,	Amount
· · · · · · · · · · · · · · · · · · ·	
2021	\$ 2,988,333
2022	433,349
2023	(14,531,680)
2024	(11,295,141)
2025	49,476
Total	\$ (22,355,663)

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Teachers' Retirement Association (Continued)

G. Pension Liability Sensitivity

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5% as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percent lower (6.5%) and 1 percent higher (8.5%) than the current rate.

Dıstı	rict proportionate share of	NPL
1% decrease (6.50%)	Current (7.50%)	1% increase (8.50%)
\$ 70,878,192	\$ 44,458,796	\$ 22,676,395

The District's proportion of the net pension liability was based on the employer contributions to TRA in relation to TRA's total employer contributions including direct aid contributions from the State of Minnesota, City of Minneapolis, and Minneapolis School District.

H. Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That can be obtained at www.MinnesotaTRA.org, or by writing to TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000, or by calling (651) 296-2409 or (800) 657-3669.

Public Employees' Retirement Association

A. Plan Description

The District participates in the following cost-sharing multiple-employer defined benefit pension plan administered by PERA. PERA's defined benefit pension plan is established and administered in accordance with *Minnesota Statutes*, Chapters 353 and 356. PERA's defined benefit pension plan is tax qualified plan under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Plan

All full-time and certain part-time employees of the District other than teachers are covered by the General Employees Plan. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

B. Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state Legislature. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Public Employees' Retirement Association (Continued)

B. Benefits Provided (Continued)

General Employees Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1 the annuity accrual rate for a Coordinated Plan member is 1.2% of average salary for each of the first ten years of service and 1.7% of average salary for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Annuities, disability benefits, and survivor benefits are increased effective every January 1. Beginning January 1, 2019, the postretirement increase will be equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1.0% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. For recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

C. Contributions

Minnesota Statutes Chapter 353 set the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

General Employees Fund Contributions

Coordinated Plan members were required to contribute 6.5%, of their annual covered salary in fiscal year 2020 and the District was required to contribute 7.5% for Coordinated Plan members. The District's contributions to the General Employees Fund for the year ended June 30, 2020, were \$793,641. The District's contributions were equal to the required contributions as set by state statute.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Public Employees' Retirement Association (Continued)

D. Pension Costs

General Employees Fund Pension Costs

At June 30, 2020, the District reported a liability of \$7,839,804 for its proportionate share of the General Employees Fund's net pension liability. The District's net pension liability reflected a reduction due to the State of Minnesota's contribution of \$16 million to the fund in 2019. The State of Minnesota is considered a non-employer contributing entity and the State's contribution meets the definition of a special funding situation. The State of Minnesota's proportionate share of the net pension liability associated with the District totaled \$243,656. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2018, through June 30, 2019, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2019, the District's proportionate share was 0.1418% at the end of the measurement period and 0.1481% for the beginning of the period.

School's proportionate share of net pension liability	\$ 7,839,804
State of Minnesota's proportionate share of the net pension	
liability associated with the School	243,656
Total	\$ 8,083,460

For the year ended June 30, 2020, the District recognized pension expense of \$849,418 for its proportionate share of the General Employees Plan's pension expense. In addition, the District recognized an additional \$18,248 as pension expense (and grant revenue) for its proportionate share of the State of Minnesota's contribution of \$16 million to the General Employees Fund.

At June 30, 2020, the District reported its proportionate share of deferred outflows of resources and deferred inflows of resources, and its contributions subsequent to the measurement date, from the sources on the following page.

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Public Employees' Retirement Association (Continued)

D. Pension Costs (Continued)

	Deferred Outflows of	Deferred Inflows of
	Resources	Resources
Differences between expected and actual economic experience	\$ 222,454	\$ -
Changes in actuarial assumptions	-	638,948
Difference between projected and actual investments earnings	-	835,419
Change in proportion	10,149	284,469
Contributions paid to PERA subsequent to the measurement		
date	793,641	
Total	\$ 1,026,244	\$ 1,758,836

The \$793,641 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

	Pension
Year Ended	Expense
June 30,	Amount
2021	\$ (527,847)
2022	(759,404)
2023	(251,616)
2024	12,634
Total	\$ (1,526,233)

E. Actuarial Assumptions

The total pension liability in the June 30, 2019, actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Inflation	2.50 % Per year
Active member payroll growth	3.25 % Per year
Investment rate of return	7.50 %

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Public Employees' Retirement Association (Continued)

E. Actuarial Assumptions (Continued)

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on RP 2014 tables for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25% per year.

Actuarial assumptions used in the June 30, 2019, valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan was completed in 2019. Economic assumptions were updated in 2018 based on a review of inflation and investment return assumptions.

The following changes in actuarial assumptions occurred in 2019:

Changes in Actuarial Assumptions:

• The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions:

• The employer supplemental contribution was changed prospectively, decreasing from \$31 million to \$21 million per year. The State's special funding contribution was changed prospectively, requiring \$16 million due per year through 2031.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Final Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	35.5 %	5.10 %
Private markets	25.0	5.90
Fixed income	20.0	0.75
International equity	17.5	5.90
Cash equivalents	2.0	0.00
Total	100 %	

NOTE 6 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Public Employees' Retirement Association (Continued)

F. Discount Rates

The discount rate used to measure the total pension liability in 2019 was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in *Minnesota Statutes*. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1%	Decrease in			1%	Increase in
	Discount Rate Discount Rate		Discount Rate Discount Rate			scount Rate
		(6.5%)		(7.5%)		(8.5%)
District's proportionate share of						
the PERA net pension liability	\$	12,888,216	\$	7,839,804	\$	3,671,337

H. Pension Plan Fiduciary Net Position

Detailed information about the General Employees Fund's fiduciary net position is available in a separately-issued PERA financial report that includes the financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org.

NOTE 7 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to employees for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three years. There were no significant reductions in the District's insurance coverage during the year ending June 30, 2020.

All funds of the District participate in the Dental Self-Insurance program. Based on the requirements of GASB Statement No. 10, a liability is reported if information prior to the issuance of the financial statements indicates it is probable a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The District self-insures for dental coverage up to certain limits. A stop-loss policy was purchased that limits the District's loss to \$1,000 per incident. The total claims liability reported in the fund at June 30, 2020, was \$7,251 and included amounts for known claims and for estimated incurred but not reported claims. These estimates are determined based on the probability a loss has occurred and the amount of the loss can be reasonably estimated.

NOTE 7 – RISK MANAGEMENT (CONTINUED)

Changes in the fund's claims liability amounts for the past three years are as listed:

Year	eginning Balance	ms Expense l Estimates	_	Claims Payments	Ending Balance
2018	\$ 15,277	\$ 459,687	\$	466,148	\$ 8,816
2019	8,816	485,143		485,870	8,089
2020	8,089	448,895		449,733	7,251

Beginning in 2014, the District has provided a health care self-insurance program. Under this program, the fund provides up to a maximum of \$125,000 for each health claim. All funds of the District participate in this program and make payments to the Health Insurance Internal Service Fund. Based on the requirements of GASB Statement No. 10, a liability is reported if information prior to the issuance of the financial statements indicates it is probable a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. A stop-loss policy was purchased that limits the District's loss to 125% of premiums. The total claims liability reported in the fund at June 30, 2020, was \$541,229 which is comprised of the liability for known claims as well as an estimate for claims incurred but not yet reported.

Changes in the fund's claims liability amounts since inception of the fund are as follows:

Year	Beginning Balance		Claims Expense and Estimates		Claims Payments		Ending Balance
2018 2019 2020	\$ 427,018 425,933 673,160	\$	6,742,603 7,283,200 7,718,712	\$	6,743,688 7,035,973 7,850,643	\$	425,933 673,160 541,229

NOTE 8 – POST EMPLOYMENT HEALTH CARE PLAN

A. Plan Description

The District's defined benefit OPEB plan provides a single-employer defined benefit health care plan to eligible retirees. The plan offers medical coverage. Medical coverage is administered by PreferredOne. It is the District's policy to periodically review its medical coverage and to obtain requests for proposals in order to provide the most favorable benefits and premiums for District employees and retirees.

B. Benefits Provided

Under the terms of collectively bargained employment contracts, the District is required to pay the health and dental insurance premiums for Plan C for retired employees until they reach the age 65 up to a maximum of ten years. For employees meeting a certain length of service experience requirements, the amounts to be paid is equal to the same insurance premium benefit as a full-time employee in the retiring employee's respective bargaining unit. The General Fund, Food Service Fund, and Community Service Fund typically liquidate the Liability related to OPEB.

NOTE 8 – POST EMPLOYMENT HEALTH CARE PLAN (CONTINUED)

C. Members

As of July 1, 2018 the following were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	76
Active employees	791
Total	867

D. Contributions

Retirees and their spouses contribute to the health care plan at the same rate as District employees. This results in the retirees receiving an implicit rate subsidy. Contribution requirements are established by the District, based on the contract terms with PreferredOne. The required contributions are based on projected pay-as-you-go financing requirements. For fiscal year 2020, the District contributed \$908,147 to the plan.

E. Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Key	Methods	and Assum	ptions Us	ed in '	Valuation	of Total	OPEB	Liability
-----	---------	-----------	-----------	---------	-----------	----------	-------------	-----------

Investment rate of return Salary increases Inflation	2.90%, net of investment expense 3.00%, including inflation 2.50%
Healthcare cost trend increases	6.25% initially, decreasing to an ultimate rate of 5.00%
Mortality Assumption	RP-2014 White Collar Mortality Tables with MP-2017 Generational Improvement Scale

The actuarial assumptions used in the June 30, 2020, valuation were based on the results of an actuarial experience study for the period July 1, 2018 – June 30, 2019.

Changes in actuarial assumptions for the fiscal year ending June 30, 2020:

- The expected long-term investment return was changed from 2.50% to 2.90%.
- The discount rate was changed from 3.10% to 2.40%.

The discount rate used to measure the total OPEB liability was 2.40% based on the 20-year municipal bond rate.

NOTE 8 – POST EMPLOYMENT HEALTH CARE PLAN (CONTINUED)

E. Actuarial Assumptions (Continued)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the table on the following page.

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed income	95 %	3.00 %
Cash Total	100 %	1.00 2.9 %

The details of the investments and the investment policy are described in Note 3. of the District's financial statements. For the year ended June 30, 2020, the annual money-weighed rate of return on investments, net of investment expense, was 2.9%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

F. Discount Rate

The discount rate used to measure the total OPEB liability was 2.40%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 8 – POST EMPLOYMENT HEALTH CARE PLAN (CONTINUED)

I. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the District recognized OPEB expense of \$1,358,641. At June 30, 2020, the Distract reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	of Inflows of
Liability losses Investment gains/losses Changes of assumptions	\$ 148,7 26,9 1,213,8	903 -
Total	\$ 1,389,4	454 \$ 498,200

NOTE 8 – POST EMPLOYMENT HEALTH CARE PLAN (CONTINUED)

I. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending	
June 30,	Total
2021	\$ 112,302
2022	111,135
2023	117,035
2024	114,455
2025	107,011
Thereafter	329,316
Total	\$ 891,254

NOTE 9 – COMMITMENTS

As of June 30, 2020, the District had various commitments with contractors totaling \$1,707,809 for building and construction activity.

NOTE 10 - CHANGE IN ACCOUNTING PRINCIPLE

For the fiscal year ended June 30, 2020, the District has adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities. The student activity accounts of the District, as of July 1, 2019, have been taken under board control and will not be reported separately. The balance of prior year agency fund is also now presented within governmental funds in response to the new accounting guidance. These adjustments affected beginning fund balance for the General Fund and beginning net position for governmental activities in the amount of \$546,497.

NOTE 11 – GASB STANDARDS ISSUED BUT NOT YET IMPLEMENTED

GASB Statement No. 87, Leases establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This statement will be effective for the year ending June 30, 2022.

TRA Retirement Fund

2019 Changes

Changes in Actuarial Assumptions

• None

2018 Changes

Changes in Actuarial Assumptions

- The discount rate was increased to 7.5% from 5.12%.
- The cost of living adjustment (COLA) was reduced from 2.0% each January 1 to 1.0%, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.1% each year until reaching the ultimate rate of 1.5% on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.5% if the funded ratio was at least 90% for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019, and ending July 1, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to 0.0% beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.0% to 3.0%, effective July 1, 2018. Interest due on payments and purchases from members, employers was reduced from 8.5% to 7.5%, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years (7.71% in 2018, 7.92% in 2019, 8.13% in 2020, 8.34% in 2021, 8.55% in 2022, and 8.75% in 2023). In addition, the employee contribution rate will increase from 7.50% to 7.75% on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

2017 Changes

Changes in Actuarial Assumptions

- The discount rate was increased to 5.12% from 4.66%.
- The cost of living adjustment (COLA) was assumed to increase from 2.0% annually to 2.5% annually on July 1, 2045.
- The COLA was not assumed to increase to 2.5% but remain at 2.0% for all future years.
- Adjustments were made to the combined service annuity loads. The active load was reduced from 1.4% to 0.0%, the vested inactive load increased from 4.0% to 7.0% and the non-vested inactive load increased from 4.0% to 9.0%.
- The investment return assumption was changed from 8.0% to 7.5%.
- The price inflation assumption was lowered from 2.75% to 2.5%.
- The payroll growth assumption was lowered from 2.5% to 3.0%.
- The general wage growth assumption was lowered from 3.5% to 2.85% for ten years followed by 3.25% thereafter.

TRA Retirement Fund (Continued)

2017 Changes (Continued)

Changes in Actuarial Assumptions (Continued)

• The salary increase assumption was adjusted to reflect the changes in the general wage growth assumption.

2016 Changes

Changes in Actuarial Assumptions

- The discount rate was decreased to 4.66% from 8.0%.
- The COLA was not assumed to increase for funding or the GASB calculation. It remained at 2% for all future years.
- The price inflation assumption was lowered from 3% to 2.75%.
- The general wage growth and payroll growth assumptions were lowered from 3.75% to 3.5%.
- Minor changes as some durations for the merit scale of the salary increase assumption.
- The pre-retirement mortality assumption was changed to the RP 2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP 2015 scale.
- The post-retirement mortality assumption was changed to the RP 2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP 2015 scale.
- The post-disability mortality assumption was changed to the RP 2014 disabled retiree mortality table, without adjustment.
- Separate retirement assumptions for members hired before or after July 1, 1989, were created to better reflect each group's behavior in light of different requirements for retirement eligibility.
- Assumed termination rates were changed to be based solely on years of service in order to better fit the observed experience.
- A minor adjustment and simplification of the assumption regarding the election of optional form of annuity payment at retirement were made.

2015 Changes

Changes of Benefit Terms

• The DTRFA was merged into TRA on June 30, 2015.

Changes in Actuarial Assumption

• The annual COLA for the June 30, 2015, valuation assumed 2%. The prior year valuation used 2% with an increase to 2.5% commencing in 2034. The discount rate used to measure the total pension liability was 8.0%. This is a decrease from the discount rate at the prior measurement date of 8.25%.

General Employees Fund

2019 Changes

Changes in Actuarial Assumptions

• The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

• The employer supplemental contribution was changed prospectively, decreasing from \$31 million to \$21 million per year. The State's special funding contribution was changes prospectively, requiring \$16 million due per year through 2031.

2018 Changes

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.0% per year through 2044 and 2.5% per year thereafter to 1.25% per year.

Changes in Plan Provisions:

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.0% to 3.0%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.0%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.0% per year with a provision to increase to 2.5% upon attainment of 90% funding ratio to 50% of the Social Security Cost of Living Adjustment, not less than 1.0% and not more than 1.5%, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches Normal Retirement Age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017 Changes

Changes in Actuarial Assumptions

- The CSA loads were changed from 0.8% for active members and 60% for vested and non-vested deferred members. The revised CSA loads are now 0.0% for active member liability, 15% for vested deferred member liability and 3% for non-vested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.0% per year for all years to 1.0% per year through 2044 and 2.5% per year thereafter.

Changes in Plan Provisions

- The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The State's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

General Employees Fund (Continued)

2016 Changes

Changes in Actuarial Assumptions

- The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, the inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

2015 Changes

Changes in Plan Provisions

• On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892 million. Upon consolidation, state and employer contributions were revised; the State's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

Changes in Actuarial Assumptions

• The assumed post-retirement benefit increase rate was changed from 1.0% per year through 2030 and 2.5% per year thereafter to 1.0% per year through 2035 and 2.5% per year thereafter.

Post Employment Health Care Plan

2020 Changes

Changes in Actuarial Assumptions

- The expected long-term investment return was changed from 2.50% to 2.90%.
- The discount rate was changed from 3.10% to 2.40%.

2019 Changes

Changes in Actuarial Assumptions

- The health care trend rates and mortality tables were updated.
- The expected long-term investment return was changed from 1.30% to 2.50%.
- The discount rate was changed from 3.40% to 3.10%.

2018 Changes

Changes in Actuarial Assumptions

• The discount rate was changed from 2.8% to 3.4%.

^{*} General Fund expenditures presented on the compliance table exclude capital lease related expenditures of \$3,336,440 which were recorded in the year of issuance in accordance with GAAP. These expenditures are offset by an other financing source and have no impact on fund balance. UFARS data is presented as of 11/30/2020 whereas the audit report was issued on 12/11/2020.

STATISTICAL SECTION

Independent School District No. 192 Statistical Section (Unaudited)

III. Statistical Section (Unaudited)

This part of the Independent School District No. 192's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	106
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	114
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	120
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	126
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	129

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note 1: Delinquent taxes receivable are written off after seven years. The amount of collections has been adjusted to reflect the write-off of delinquent taxes receivable.

Source: State of Minnesota School Tax Report and Dakota County Certification Report.

Note 2: A portion of the total tax levy is paid through various property tax credits which are paid through state aids.

Note 3: Property taxes are remitted to the District based on a calendar year, the amount stated represents collections through the District's year end of June 30.

Independent School District No. 192 Direct and Overlapping Governmental Activities Debt Last Ten Years Last Ten Fiscal Years

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable	Estimated Share of Overlapping Debt	
Debt Repaid with Property Taxes				
City of Farmington	\$ 9,530,000	99.97%	\$ 9,526,846	
City of Lakeville	98,745,000	8.53%	8,426,898	
Metropolitan Council	226,485,000	0.78%	1,758,203	
Town of Empire	2,460,000	85.87%	2,112,345	
Subtotal, overlapping debt	337,220,000		21,824,292	
Independent School District No. 192 - Direct Debt	166,590,000	100.00%	166,590,000	
Total direct and overlapping debt			\$ 188,414,292	

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of th District. This process recognizes that, when considering the government's ability of issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. Debt outstanding for Dakota County, Metropolitan Council, town

Dakota County has no applicable outstand debt to include-they called their 2007 bonds in 2016 of empire and the cities of Farmington and Lakeville is as of August 2016.

Town of Empire-issed new debt
