

Directions for Setting Up Your email on Your Personal Phone

While it is important for you to realize that we don't support personal phones, you may wish to receive your school email on your personal cell phone. We do not have specific instructions for iPhones or the various models of androids but the information you need to enter is usually the same for most phones.

User name: first initial last name (your network id)

Example - Email address: kparker@farmington.k12.mn.us

Password: This is the password that you use to get into your Farmington account

Domain: isd192

Server: owa.farmington.k12.mn.us

Encryption: SSL or encryption is required (this is usually a checkbox)
